

Grant Brown

McLean, VA | gnb225@nyu.edu | Cell - 571.249.8475 | grantnbrown.com | github.com/gratnathanielbrown

Web Developer seeking a role involving JavaScript, React, and related technologies. I specialize in building SPAs, integrating with RESTful APIs, and architecting React components. My experiences as a tutor, barista, and campaign worker laid the groundwork necessary to collaborate with clients and teammates alike, communicating complex concepts with clarity.

SKILLS

Core Skill Set:

HTML • CSS • JavaScript • React • Express.js • Node.js • Bootstrap • Git

Proficient At:

MongoDB • Material-UI • Jira • Jest • Enzyme

PROJECTS

Christen M. Kerr- Professional website developed in accordance with the client's wishes. Collaborated and communicated with client at regular intervals to ensure quality and correctness in the product.

Technologies - React.js, Bootstrap

Slithereen- Trivia game which allows multiple users to play and chat with one another concurrently.

Technologies - React.js, socket.io, Node.js, Express.js

Scrappy- Reddit scraper which allows users to filter posts based on advanced queries and download content in bulk.

Technologies - React.js, Node.js, Express.js, anime.js

Mangad- Image sharing site for manga lovers. Backend functions to give users full CRUD (create, read, update, delete) functionality through API calls. Users are authorized with Passport.js.

Technologies - Node.js, Express.js, Passport.js, MongoDB, Handlebars

EDUCATION

GENERAL ASSEMBLY

IMMERSIVE WEB DEVELOPMENT

January 2018 - April 2018 | Washington, D.C.

NEW YORK UNIVERSITY

B.A. IN POLITICAL SCIENCE

December 2017 | New York, NY

EXPERIENCE

VERIZON WIRELESS | WEB DEVELOPER

September 2019 – March 2020 | Ashburn, VA

- Created a full stack application which loaded XML or JSON data from services and bundled data nodes into objects which could be saved in XML or JSON form (cross-compatible).
- Integrated tool with Postgres to allow saving and loading of data through RESTful API calls.
- Converted legacy code written in vanilla JavaScript or jQuery into modern React components.
- Created customizable, reusable React components from InVision mockups, in accordance with Verizon design standards.
- Handled front end bug fixes through the Jira ticketing platform, communicating with 3 developer colleagues regularly.

FREELANCE WEB DEVELOPMENT | SELF-EMPLOYED

October 2018 - March 2019 | Washington, D.C.

- Created a website for a professional practice, making use of the Google Maps API, React Router, and custom Javascript animations.
- Used Bootstrap 4 to create mobile-friendly, personalized elements.
- Adhered to Section 508 guidelines by using semantic tagging, color contrast, keyboard only navigation, and more.

GENERAL ASSEMBLY | IMMERSIVE WEB DEV. STUDENT

January 2018 - April 2018 | Washington, D.C.

- Completed a 12 week, full-time web development course, studying under the guidance of instructors and independently.
- Developed 4 full-stack applications using HTML, CSS, JavaScript, Node.js, Express.js, Bootstrap, React.js, and other technologies. The planning process for these projects involved wireframing, coordinating Git flow, detailing MVP's, and envisioning user stories.

GREENBERRY'S COFFEE CO. | BARISTA

June 2015 – June 2016 | McLean, VA

- Periodically completed essential tasks such as tallying cash registers, maintaining the drink bars, and ensuring the cleanliness of the store.
- Adapted to long, stressful rush periods with 50-100 customers, adopting efficient distributions of labor and task priorities.
- Comprehensively on-boarded 5 new employees.
